	CDJ-350-BK	**Pioneer CDJ-350 NEW!** The CDJ-350 is compatible with various music formats such as MP3, AAC, WAV and AIFF. All can be played either via a USB device or from CD-R discs. It also plays regular music CDs, so you can enjoy DJing with all major media and music formats. The CDJ-350 comes equipped with the BEAT Display function, which shows the beat position of a song and the playback point. This lets you check the beat both by sound and vision, giving a feel of 'hand/eye/ear coordination' to aid practice and performance of tricks such as scratching and looping. With one press of the button, you can enjoy all kinds of loop erformances. Beat Loop: Matches the beat and repeats a 4-beat loop.Loop Divide: While playing a loop, plays the loop at a different rhythm. Hot Loop: While playing a loop, returns to the start of the loop and plays it. With just the push of a button, it matches the song that is playing to the preset master BPM. Connecting the CDJ-350 via USB to a computer allows it to be controlled by MIDI compatible DJ software, as well as using the music files on the computer to enjoy DJing. It can also be used as an audio interface. Excellent vibration-resistance thanks to its Shock-Proof Memory and Floating Architecture. Four levels of settings can be made for the maximum variation range of a song's tempo–±6%, ±10%, ±16% and WIDE (audio CDs only for WIDE mode) Thanks to the Resume function, when a disc is removed and later reloaded, it returns to the previous point. System: Audio CD, CD-R/RW, USB storage device, 2 x USB Ports Frequency response: 4 Hz–20 kHz, Signal-to-noise ratio: 115 dB Dimensions: 220 × 288.5 × 107 mm (W×D×H), Weight: 2.3 kg	499,00		599,00 EUR
	CDJ-350-W	**Same as CDJ-350-BK but in white**	458,00		550,00 EUR
	CDJ-400 DEAL!	**Pioneer CDJ-400** Designed for DJs by DJs and drawing inspiration from our industry standard CDJ-1000 series, the CDJ-400 is a flexible, affordable performance player for the aspiring club DJ to use at home. The CDJ-400 allows you to play your MP3 collection off CD-R/RW discs as well as music from mass storage USB devices, such as USB keys, external hard drives and portable media devices. The deck also features the world's first Scratch Jog Effects , with three creative scratch effects and an amazing new Loop Divide function. Virtually all of the button and slider functions can send MIDI data as USB output, making it possible for the decks to control external DJ software such as our DJS, an MP3 mixing software that emulates a full Pioneer DJ setup on your PC. It includes 8 innovative effects, a waveform display with cue / looping ability and can convert CD / line input signals to MP3 within an easy to manage music library. Other third party applications will also be supported such as Serato Scratch LIVE on a PC or MAC . MP3, MPEG-1 32Kbps - 320 Kbps / MPEG-2 16 Kbps - 160 Kbps Quick Start, Reverse, Real Time Seamless Loop, Loop Adjust, Reloop, Cue / Loop Memory Digital Jog Break USB Memory Stick Enabled Shock-Proof, Scratch Play / Cue Fader Start / Back Cue start / Relay Play	536,00	499,00	599,00 EUR

E C P B R	Model	Description	EUR Netto (ex. VAT)	Special EUR (ex. VAT)	EUR + 20% DDS (incl. VAT)
	CDJ-800 MK2 DEAL!	The Pioneer **CDJ-800MK2** has a stylish new silver metallic finish and metallic JOG buttons and also includes full MP3 compatibility; tracks can be operated in the same way as CDs as the deck is equipped with ¡®Folder Search¡¯, and in ¡®Text Mode¡¯ the artist name, track title and file name are shown on the display. The JOG wheel retains the non-slip metallic finish of the CDJ-1000MK3 and the subtle silver trim on the wheel, as well as the same features on the On JOG Display (brighter, larger cue point and 45¢ª marks). The feel of the JOG wheel is tweaked to mirror that of the CDJ-1000MK2. The track data display is of a higher resolution (multicolour and fluorescent) and the address data has been extended to include the complete track. Resume play is also included alongside the backlighting of the re-loop button. In addition, it¡¯s now possible to make short beat loops on the CDJ-800MK2 due to the inclusion of an AUTO BEAT LOOP command: by pushing the loop-in button, DJs can create a one-per-eight BEAT LOOP. MP3 track data displayed Digital In/Out Refined JOG feeling adjust New fast and more accurate manual search capability using the JOG wheel improved WAVE data, Legato Link conversation, Extra cue points (Pair of)	596,00	549,00	**659,00** EUR
	CDJ-850	Replacing the CDJ-800MK2, the **CDJ-850** offers some major enhancements over its predecessor. This deck is designed to feel and function like a CDJ-900 or CDJ-2000 and is rekordbox enabled, while maintaining an affordable price. No matter what source – CD, USB (flash drive or disk) or straight from PC or Mac – this deck is suitable for your way of working. MP3, AAC, AIFF and WAV (up to professional 24-bit WAV) files are supported. It's also rekordbox compatible, meaning that using the free rekordbox software, you can beforehand prepare and manage your tracks on your PC for an extra smooth DJ set. But you can also easily create your set on the fly. With the Tag List feature, you can plan 20 or even more tracks ahead. Unique to the CDJ-850, you can even add, remove and change the order of the tracks in the list. Wave Display allows you to see peaks and drops in your tracks, helping you make fluent mixes between tracks. Full-size jog wheel and other pro features Just like the CDJ-900 and 2000, the CDJ-850 has a full-size 206 mm jog wheel for a professional feel and performance, and a large screen. The USB HID interface allows you to use more complex DJ software without a control disk. Additional features include Auto Beat Loop Function, Tempo Variation, CD Resume function and vibration resistance. Disc Format CD, CD-R, CD-RW, MP3 CD, MP3 MPEG-1 32Kbps - 320 Kbps / MPEG-4 16 Kbps - 160 Kbps "MP3 Folder Search Yes . Media Loading Type Slot, Anti Vibration Incl. Accessories Power cord, Manual, Stereo Phono cable, Control Cable, Forced Eject Pin, rekordbox software Dimensions (W x H xD) 305 x 105.5 x 364.4 mm	748,00		**898,00** EUR
	CDJ-900	The CDJ-900 accompanies the launch of the new range-topping CDJ-2000 player and is loaded with many shared features. It can play from various different music sources, including CD and USB storage devices. It also comes with the revolutionary music database management software for DJs: rekordbox™. Based on our Prepare & Perform' concept, rekordbox works (for both Mac and PC) like the leading music database management software, but is more creative and more DJ-friendly. rekordbox allows DJs to prepare more before their performance and opens a door to tools such as Quantize for perfectly synced loops every time. DJs can then export data to a USB device to access vast libraries of music files and perform live - without the need for extra equipment or any inconvenient rewiring in the club. No need to burn CDs, simply take your USB device to the club, plug in to the CDJ and play. Through the industry-first Pro DJ Link, music files and database data on one single USB device can be shared simultaneously by up to four players connected via LAN (local area network) cable, or with one LAN cable between two players. Plus, the data history of each DJ set is automatically saved and can be made into a playlist that can be loaded back into rekordbox. Another key facet of the CDJ-900 is its advanced HID (human interface device) and MIDI capabilities for native control of DVS (digital vinyl systems) via USB. There is also an improved audio output circuit, a new Wolfson DAC processor, and a built-in 24-bit/48 kHz sound card. Add to these features an overall enhanced design that includes a new display screen, rotary selector, carry handles and Kensington lock. Then check out the four-beat Emergency Loop and the three CDJ-900 exclusives: the Auto Beat Loop, Quick Return scratch feature and a Slip mode that enables DJs to perform tricks and return to their original flow in an uninterrupted fashion and you have the perfect tool for maximum performance Frequency Response 4 Hz ~ 20 kHz . Signal to Noise Ratio 115 dB or more (JEITA) . Distortion 0,003 % (JEITA) . Audio Output Level 2.0 V rms (1kHz, 0 dB) . Power Consumption 26 W , 220 - 240 V, 50/60 Hz . Dimensions (W x H xD) 305 x 115.6 x 385 mm, Net Weight 3,9 kg	1.029,00		**1.235,00** EUR
	CDJ-1000 MK3	The CDJ 1000 mk3 has full MP3 support including VBR files, intelligent features, such as the direct folder search button, allow DJs to quickly access files within folders on the disc for intuitive, fast cueing. A total wide tempo range (+70% to –100%) also gives greater control than many competitor models. Along with multimedia cards, SD cards are now also compatible with the CDJ-1000MK3 so that HOT CUES, HOT LOOP points and WAVE display data can be easily stored and loaded. The CDJ-1000MK3 includes a unique JOG feeling adjust (to the top right of the JOG wheel). It tailors the deck to performers' individual styles by altering the resistance of the wheel, which benefits from a new metallic 'non-slip' finish. The visibility and detail of the information shown on the 360˚ JOG Display is also improved: the fluorescent display has been raised, increasing brightness. The cue marker is larger and new 45˚ angle marks make it easier for scratch DJs to time their effects. The track display has similarly advanced. Its resolution has been doubled, the lighting is multicolour and fluorescent and, as well as displaying the total number of tracks and track position, the WAVE data and playing address details are extended so that a DJ can see a track's entire length at a glance. Media Loading Type Slot, Anti Vibration Disc Format CD, CD-R, CD-RW, MP3 CD, MP3 MPEG-1 32Kbps - 320 Kbps / MPEG-4 16 Kbps - 160 Kbps MP3 Folder Search Yes . Incl. | | SEP-C1 DEAL! | Full-scale performance without mouse or keyboard.
The SEP-C1 works as a software controller when used in conjunction with compatible software such as our bundled "DJS". This allows you to manage and control playback of audio files stored on your computer, to give full-scale DJ performance without the need for a mouse or keyboard. The SEP-C1 is included with the MEP-7000 Multi Entertainment Player, but is also available separately. * Please note that the pictured laptop is not included | 609,00 | 549,00 | **659,00** EUR |

Profesional DJ Mixers

| | DJM-350 DEAL! | Main features of the DJM-350. You can record your own DJ mix directly to a USB storage device without having to use a computer or recording device. As recorded DJ mixes are saved in the WAV file format, they can be imported and listened to on a PC or portable audio player. The DJM-350 comes equipped with four kinds of effects—Filter,Crush,Jet and Gate. The intuitive controls allow sounds to be altered so original arrangements can be added to songs and you can enjoy DJing with all kinds of remixes. The DJM-350 has a built-in 3-band equalizer (Isolator type) that allows a broad range of level control, from +9dB to -∞ (cut) in each of the HI, MID & LOW ranges. Each band can be controlled independently. The analogue signal is converted to digital via the shortest of circuits. The analogue and digital circuit are isolated from each other, and all signal processing is performed by a high-performance CPU that minimises noise. The DJM-350 inherits the high fidelity design of the DJM series so you can enjoy DJ mixing with a clean, clear sound.

* Equipped with MIC/AUX terminals for connecting portable audio players and/or microphones.
* A CDJ player can be used for fader, start or play functions via a link to the fader control.
* All channels are equipped with peak level meters, which indicate the input level on each channel.
* The Crossfader Curve Adjustment function makes it possible to adjust the crossfader curve. | 349,00 | | **419,00** EUR |

| | DJM-350-W | **Same as DJM 350 - in white** | 417,00 | | **500,00** EUR |

| | DJM-400 | The new compact 2ch mixer, the DJM-400, offers a host of beat effects and an in-loop sampler that offers a new level of flair for creative remixing. Built around the same digital processing technology and high quality components used in Pioneerfs DJM-1000. The new unit is a reliable and robust performer with exceptional audio quality.
Although the smallest mixer in Pioneerfs range, the DJM-400 packs a wide variety of effects for creative mixing. The effects, that automatically detect the BPM of the music and sync to the beats include: Delay, Echo, Filter, Flanger, Phaser, Robot and Roll, all of which are processed at 24bits for the highest quality sound. In addition, by using the newly-adopted Beat Select Button, the DJM-400 automatically sets the effect time linked to the BPM for more intuitive play and responsive remixing.
The intelligent 96kHz/24bit sampler automatically detects the tempo of a track during playback, sampling it for four beats, then loops the sample. As the sampled audio is in sync with the beat of the track being played (no matter the tempo) the DJ is given more time to be creative. Samples are automatically beat matched and up to five samples can be stored in memory.
Each of the DJM-400fs channels has a 3-band Kill EQ which ranges from +9dB to -‡(infinity) for total control of the sound. | 349,00 | | **419,00** EUR |

| | DJM-700-K/S DEAL! | Incorporating the familiar layout and footprint of the workhorse DJM600, as well as inheriting some of the brains from its big brother, DJM800/DJM1000, Pioneer's DJM700 empowers DJs with 96 kHz/24bit sound card quality, a fully assignable MIDI interphase, loads of new effects, as well as the landmark innovation of the world's first 'Effect Frequency Filter'.

- High quality sound with 96 kHz/24-bit sampling digital system
- World's first 'Effect Frequency Filter' for more enhanced audio expression of effects
- Fully assignable MIDI function
- More intuitive setting of effects with 'Manual Filter'
- Loads of effects, including 'best effect' & 'roll sampler' | 805,00 | 659,00 | **791,00** EUR |

| | DJM-800 | The DJM-800 is the new professional-grade mixer. Pure fidelity is delivered by the hi-end 96kHz/24 bit A/D converter that's complemented by 61 assignable MIDI control channels and 'Harmonic Mixing' capability. This is a landmark innovation, that detects a track's key and automatically aligns it to the closest true key, removing inaccuracies created when adjusting the pitch. With digital connectivity, a large bright dot matrix display and a wide range of high quality effects, the DJM-800 enables DJs to perfect pristine mixing.

Cross fader assign: to assign each channel's input to the cross fader
Fader curve adjust: to change the cross fader/channel fader curva
3-Band Equalizer: a built-in equalizer on each channel enables level control within
a -26dB to +6dB range for high, mid & low bands, respectively
Talk over; automatically attenuates the volume by -20dB so an MC can talk over the track
Mic signal cut: Eliminates the mic. output to the booth monitor to prevent feedback
Peak level meter: Chack the peak level of the input audio for each channel as well as the master | 1.166,00 | | **1.399,00** EUR |

DJM-2000

| | | | 1.658,00 | | 1.990,00 EUR |

If you're looking for a mixer that matches our new industry-standard CDJ-2000 digital decks in power and performance, look no further. Developed with the help of a number of international DJs, this innovative mixer aims for relevance in both functionality and operation to give you total creative freedom. Designed with an integrated system approach to simplify the ever-expanding DJ booth, the DJM-2000 has the effects technology of the EFX-1000 built in. The 6 individual effects processors allow you to create your own unique sounds in conjunction with a stunning industry-first multi-touch panel: a completely new approach to mixing. Also featuring a rotary control and Tap and Trace methods, you get an intuitive layout so you'll be able to focus on creative mixing at all times. 3 new performance modes including MIDI (with four layouts) make every DJing scenario possible. Connecting has never been easier Enjoy advanced connectivity. ProDJ Link connects up to 4 CDJ-2000s/900s and 2 rekordbox™ laptops together so DJs can easily share their libraries and switch sets. Also, you can quickly sample live recordings, see status information (like live on-air status, channel number and more) on connected decks, and Cue Link lets you listen to rekordbox tracks via a dedicated Cue channel. Connect your laptop and use its audio signal for mixing, too. With the USB four-channel sound card built in (switchable to three-channel at 24-bit), it's never been easier. The DJM-2000 uses a balanced output amp and its completely discrete structure allows the sound quality in each bandwidth to be adjusted. We pursued the ideal club sound by creating a sound down to the very details of how sound resonates.Functionality, connectivity and quality make the DJM-2000 the ultimate club mixer.

Connection USB, Stereo Inputs 3 or 4, Stereo Outputs 0 or 1, Input/Output Configurations 3
Sample Rate 16-bit or 24-bit, Frequency 44.1 kHz / 48 kHz
Dimensions (W x H x D) 430 x 409 x 107.9 mm, Weight 8.5 kg,

DJM-3000

| | | | 767,00 | | 920,00 EUR |

Building upon the legendary capabilities of Pioneer's DJM-600, the DJM-3000 is Pioneer's first Pro DJ rack mount mixer in a 19" format. This re-sizing and rack-mounting facility, coupled with numerous feature improvements, gives users even more scope for creativity in their sets.
Other Features:
• Ther CMX--3000 offers a host of other benefits • such as Quick Start ((less than 0.01 sec)
• Track Search //Super Fast Track Search • Auto BPM Counter //Tap BPM Counter • Time Mode (Remain /Elapse)• Manual Cue//Auto Cue/Real-time Cue/Back Cue/Cue Point
Sampler • Fader Start //Back Cue • Relay Play • Digital Outputs

Signal-to-noise ratio: 87 dB or more
Distortion Ratio: 0.02% or less

DJM-5000

| | | | 775,00 | | 930,00 EUR |

The DJM-5000 offers new features such as multi-zone entertainment, three microphone inputs, Advanced Talk Over, 96kHz / 24-bit sampling, Sound Maximizer, MIDI mapping capability and a built-in sound card. Mobile DJs need more these days: more flexibility, more compatibility, more possibilities and more punch. These requirements are now met by the latest addition to the trusted DJM mixer family – the DJM-5000. The 4-channel mixer boasts several standout innovations that place a premium on DJ dynamism, usability and professional style. The ideal companion for our MEP-7000 media player, the DJM-5000 delivers 96kHz/24-bit sound and is also fully MIDI-enabled.
Its built-in sound card for the laptop DJ guarantees quick and convenient PC/Mac connectivity, while three microphone channels together with four mic effects and an Advanced talk over application allow meticulous control over MCs, announcements and vocals. .
It also offers a dedicated Master/Zone output facility, enabling one DJ to manage two separate outputs across two different locations. Adding to its knockout credentials, the DJM-5000 includes a new Sound Maximizer function that boosts EQ dynamics to suit play in any environment and breathe new life into MP3's.
Dimensions (W x H x D) 482.6 x 107.8 x 225.1 mm .
Weight 8.9 kg .Power Consumption 33 W .SN Ratio: Line 102 dB .SN Ratio: Mic 84 dB .
Harmonic Distortion 0.005% .Crosstalk 80 dB

EFFECTOR

| | EFX-500/R | User-friendly top panel operation. Operation system allows live performances. Pioneer has launched an all new Effector with a DJ perspective and instrument feel. Further evolved BEAT EFFECTS actualize realtime effect performance with a JOG DIAL, allowing 25 different effects (5x5 combination). You can expand the digital sound world by connecting this machine to your mixer, player and electric instruments. | 383,00 | | **460,00** EUR |

| | EFX-1000 | The new Pioneer EFX1000 is the high quality version of the classic EFX500.
24-bit/96kHz digital sampling
Equipped with a 24-bit Analogue/Digital, Digital/Analogue converter (96kHz sampling) and 32-bit digital sound processing, the EFX-1000 offers the best-possible audio quality.
Beat and rhythm effects
Effect Type: DELAY, ECHO, PITCH ECHO, TRANS, FLANGER, FILTER, PHASER
Rhythm Effect: Enables the DJ to process the effects together with a pre- programmed rhythm
BPM Effect: Lets the DJ process the effects linked to the tempo of the song
Effect Frequency Selection: Allows to select and effect the following frequency range (HI, MID, LOW)
Digital Jog Break. Effect Type: JET, WAH, PHASE, SHIFTER RING, ZIP, HUMANIZER, VOCODER
Hold Switch: Gives DJs the ability to hold the Jog Dial effect
Jog Memory Play: Memorises and reproduces the motion of the Jog Dial, either once – using SINGLE – or in a repeating LOOP, allowing DJs to reproduce effect changes at will
Jog Break Meter: Expresses the Jog Break movement visually | 728,00 | | **874,00** EUR |

VDJ DVD PLAYERS & Mixers

| | SVM-1000 | 4-Channel Audio and Video Mixer
Designed for use with our DVJ-1000 DVD/CD decks, the SVM-1000 gives you comprehensive control by synchronising both audio and video elements of your performance.

Complete with LCD touch panel, an impressive range of effects and 96 kHz/ 24-bit studio sound quality, the MIDI assignable SVM-1000 functions in a similar fashion to our acclaimed DJM series; which for DJs mean that the doors to full-on AV freedom are now fully open!

Inputs: CD/LINE Input 6, PHONO Input 2, Digital Input (Coaxial) 2,
MIC Input (XLR) 1 (Neutrik Combi), MIC Input (1/4 inch Phone) 1 (Hinten)
Output SVM-1000: Master Output (XLR) 1, Master Output (RCA) 1,
Booth Output (1/4 inch Phone) 1 (T.R.S.) , Booth Output (RCA) 1, Rec Out (RCA) 1
Digital Out (Coaxial) 1 x (SP/DIF) (48kHz or 96kHz)
Effect/Sampler SVM-1000
Touch Panel, Beat Effect 12, Auto BPM Counter, MIDI Global Clock, Roll Sampler (Fwd)
Roll Sampler (Reverse), Effect Level & Depth Volume
Video Control SVM-1000
Video Trim, Video EQ - Mapable, Visualiser, JPEG Viewer, Text Generator | 5.061,00 | | **6.073,00** EUR |

| | DVJ-1000 | **Professional DVD Video/CD Deck**
Get the best of both CD and DVD worlds – scratch, loop and cue both audio and video with the DVJ-1000. Offering the same operation and layout as the CDJ1000MK3 but with enhanced DVD specifications, you can easily create and add visuals to your set. Manipulate DVDs as you would music - digital video scratches, loops and instant cues are all possible.

Offers enhanced specification on the CDJ-1000MK3, allowing DJs to easily add visuals to their sets. You can perform audio-only sets while having the option to mix in DVD, with a powerful and versatile range of effects. The best of both worlds.

Additional features include MP3 compatibility, a brighter and larger wave display, studio quality 96kHz/24-bit audio and several new innovations like 4 x hyper jog mode and a back and forth loop button. It's a globetrotter, too - playing both NTSC and PAL DVDs using a built-in standards converter.

- MP3 Playback from DVD-R/RW, CD-R/RW
- New performance loops
- Preview Monitor displays information without the need to switch display modes
- Cue / Loop Point Navigator
- 24bit/96kHz Digital Out
- New 'JOG feeling adjustment' tailors the deck to performers' individual styles | 1.990,00 | | **2.388,00** EUR |

| | DVJ-FLT | Flight Case for DJV-1000 | 406,00 | | **487,00** EUR |

DJ HEADPHONE

EUR

| | SE-DJ5000 | Tightly closed type dynamic headphones. Great quality - almost "classic" headphones that innovated the swivelling cup design.Exclusive Single-Ear Monitor-Use , Shoulder Rest, 50 mm Large-Diameter Headphones that Deliver Pro-Level Performance, HOUSING-Rotation/Reverse Rotation Mechanism and Foldable Design
Coiled Cord and Cord-Fixing Belt Clip Ensure, Superb Freedom of Movement, Robust Stress-Absorbing Structure , Stereo/Monaural Switch, Accessories Shoulder rest (shoulder pad), 06.3 mm 3P plug adaptor (gold plated) with screws, cord-fixing belt clip

Playback frequency range: 5-28000 Hz
Impedance: 55 ohms
Maximum input: 3000mW, Output sound level: 105 dB/mW
Unit type: 50 mm dome type
Plug: 03.5 mm 3P mini plug (gold plated)
Connection cord: 1.2 m one-side out coiled cord (extending to 3 m), Weight: approx. 270 g (not including cord) | 115,00 | | **138,00** EUR |

| | HDJ-2000 DEAL! | The ultimate professional DJ headphone
High quality frequency response for unmatched clarity and ultra defined audio
High flux magnets for perfect sound resolution
Durable Lightweight magnesium swivel/fold mechanism for comfortable prolonged use

Frequency Range: 5 to 30,000 Hz
Impedance: 360 Ohm
Maximum Onput: 3,500 mW / Output Sound Level: 107 dB/mW
Unit Type: 2" dome
Plug: 3.5 mm 3P mini plug (gold plated)
Weight: 270g (excluding cord)
Connection cord: 3.94 ft long single coiled cable (approx. 9.84 ft when straight) | 277,00 | 229,00 | **275,00** EUR |

| | HDJ-1000 | Tightly closed type dynamic headphones. Folding Housing With Universal Joints
Joints allow you to fold the headphones for space-saving and to turn them in each direction for free-style single ear sound monitoring. Designed with DJs in mind, the housing can rest against the shoulders for stability and comfort. Stereo/Mono Selector. The selector allows you to mix right and left channel signals for single ear sound monitoring. 50-millimeter dome fully encompasses the ear, Cord assembly available as service part.
Accessories: 06.3 mm 3P plug adapter with screw & carrying bag.

Frequency Range: 5 to 30,000 Hz, Impedance: 40 Ohm
Maximum Onput: 3,500 mW / Output Sound Level: 107 dB/mW, Unit Type: 50 mm dome
Plug: 3.5 mm 3P mini plug (gold plated)
Weight: 270g (excluding cord), Connection cord: 3.94 ft long single coiled cable (approx. 9.84 ft when straight) | 157,00 | | **188,00** EUR |

	SVJ-DS01	Pioneer's DJS software was designed for professional and amateur DJs to enable full-scale DJ play on a PC. The software offers the same playability and functionality as the company's Pro DJ products, using a PC instead of two CDJ turntables and a DJ mixer. Also included is a ripping function for converting CD, line input signals and wave files to MP3. The graphic user interface is intuitive and easy to understand. The display shows everything a professional DJ needs to see, including time, BPM, mixer controls, jog dial, hot cue buttons, etc. The DJ can assign basic functions to a particular key on the PC keyboard. By doing this for frequently used functions, the DJ can establish his or her own playing style – on a keyboard. In addition, the "SYNC" feature automatically beat matches the cued track to the track that is playing and a powerful effects program mimics the effector features of the DJM-600.	123,00		148,00	EUR

	SC-LX90	**SUSANO High Definition Amplifier** Incorporating a new and unique Direct Energy HD Amplifier, developed together with ICEpower, the amplifier delivers a solid drive capability that can realise true multi-channel total power output of 1400W over 10 channels. The uniqueness of the SC-LX90 is also evident in its construction which supports an ideal separation of the pre-block and actual amplification block in one body. This 'Separated Power Block Design' realises the perfect unification of an optimally designed pre-amplifier and power amplifier. Enjoy direct and easy-to-control access to your music, videos and, photos, stored on DLNA-compatible media or browse through media via your USB player or iPod; audio playback is supported. With 6 HDMI inputs and 2 HDMI outputs, the SC-LX90 is designed to fully support every audiovisual experience. Handling the latest lossless audio formats such as Dolby TrueHD and DTS-HD Master Audio, the amplifier brings life audio signals from HD media including Blu-ray in genuine master quality. Another feature of the SC-LX90 is the 5.1" LCD monitor on the front; displaying varied information in full colour, letting you navigate without using an external display	4.343,00		5.212,00	EUR
